Empowering story of self love and natural beauty

Such a delightful tale that empowers girls to embrace their natural hair & to value the beautiful versatility of their Afrocentric coils. My 3 yr old really enjoys this book and as a mom of two girls, it is so affirming to be able to pour self love into them through story!

Such an inspirational book for children!

I LOVE THIS BOOK! I read it to my niece every weekend she is with me, before bedtime. She is 6 years old and every time we are together she tells me "we have to live the life of our dreams Aunty." This warms my heart- thank you Dr. Penn
